Debrecen has been the city of fairs for centuries. Due to its location in the middle of the Great Plain, its closeness to the best arable lands of the country as well as to the Eastern borders, it is an especially suitable venue for agricultural exhibitions.

Over the past 28 years, Farmer-Expo has established a tradition in the Hungarian agriculture. Every August, the major operators of the sector gathers in Debrecen. It is hard to find a cosier place for open-air livestock judging, equestrian programmes and demonstration of soil cultivation than the area belonging to the Debrecen University of Agricultural Sciences. In addition to shady trees and a huge territory covered with lawn, the required infrastructure and an air-conditioned hall are at the exhibitors' disposal.

5 REASONS FOR THE FARMER-EXPO

An international meeting for businessmen with an increasing number of participants **from the countries of the Carpathian Basin.**

Breeding animals are to be judged in several categories, spectacular **horse and field shows** are to be held.

In collaboration **with professional organisations, a conference on animal husbandry, plant and food production is to be held** in 2020, as well.

Most of our visitors work in the agricultural sector and arrive to the exhibition with the intention of **preparing decisions.**

Farmer-Expo represents recognised quality and standard in the exhibition market. Our company stands behind you **with 28 years of experience in organising exhibitions.**

- COMMERCIAL VEHICLES

PARTNER EVENT

The 15th HORTICO Fruit and Vegetable Farming Exhibition

Vegetable and fruit production is outstanding in the Great Plain region. The region accounts for 70% of fruit production and over 80% of vegetable production. The role of Szabolcs-Szatmár-Bereg County is also outstanding due to the quantity of apples produced here. In 2018, 61% of the total apple production (73%) was produced here. A significant proportion of the workforce in the region lives from agriculture.

The HORTICO Fruit and Vegetable Farming Exhibition was born based on the needs of exhibitors and professional experts in 2006. The niche event is an extensive professional forum for the horticultural sector. Since then, it has been an annual gathering for the sector and an opportunity for farmers' cooperatives to meet their suppliers and customers. FruitVeb (Hungarian Fruit and Vegetable Interbranch Organisation), our professional partner helps us organise this event.
